

**Judy S. Best**

Vice President, Business Systems and Interoperability

---

Judy Best is vice president of business systems and interoperability for AHS Information Services. She oversees project management, patient access, health information management and financial and administrative systems. She is also responsible for interoperability, which includes the data warehouse, business intelligence, web and interfaces.

Prior to joining AHS Information Services in 2008, Best worked at Bayfront Medical Center for more than 20 years as the director of applications and projects.

Best holds a bachelor's degree in business administration from Eckerd College in St. Petersburg, FL. She currently serves on the Premier Group Purchasing Organization Committee.
